

BI-POLAR[®] ICE

Reduce Cleaning & Maintenance Time

- Built Tough to Outlast your Ice Machine
- Zero Replacement Parts
- Ozone & Chemical Free
- Mercury Free
- No Glass
- Low Maintenance
- Consumes Less than 10 Watts of Electricity
- 100% Made in America

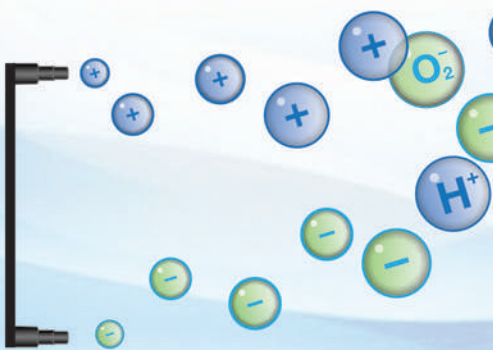

BPi2400 Specifications

Electrical	BPi2400-110 Usage BPi2400-220 Usage	110-120 VAC / 80mA 208-277 VAC / 40mA
Mechanical	BPi2400-110 Dimensions Weight of Unit Shipping Weight	4" W x 2" H x 1.3" D 0.25 lbs 2 lbs
	BPi2400-220 Dimensions Weight of Unit Shipping Weight	4" W x 2" H x 1.3" D 0.25 lbs 2 lbs

Bi-Polar Ionization

Replicating the Benefits of Mother Nature

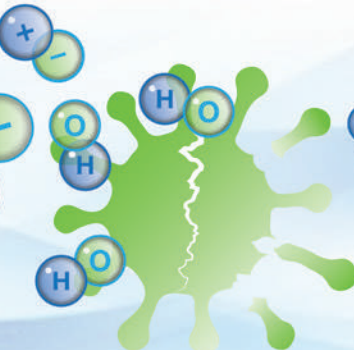

Step 1.

Positive & Negative Ions are Dispersed

Positive and negative ions are created by splitting water vapor present in the air. Our purifiers are **proactive** dispersing ions throughout the ice machine.

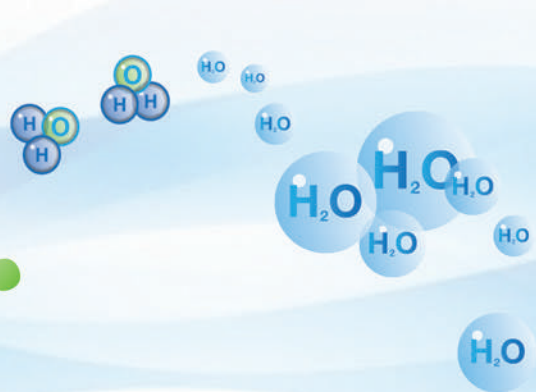

Step 2.

Slime, Mold & Bacteria are Destroyed

Polarized ions **actively** seek out pollutants and break them down. They are neutralized as the contaminants are destroyed.

Step 3.

Harmless By-products of Water Vapor

Polarized ions revert back to harmless water vapor and the cycle repeats, thereby reducing additional contaminants.
